TESTIMONIAL

When **bfi Business Furnishings (Calgary) Inc.** was first established back in 1977 one of my first calls was to CSS Office Furniture Systems Inc.

I knew that I would need a company that I could depend on for all my delivery, installation and service work. And having worked with CSS in the past it was an easy phone call for me to make.

From receiving our product at their warehouse, inspecting it for freight damage, arranging delivery and then installing it, CSS has always provided prompt and professional service.

Attention to detail has always been and will always remain their top priority.

Would we recommend CSS to others? You bet we do!! Not only is our existing client base well aware of the type of service CSS provides. We recommend them to all our clients for their internal or building to building move requirements. It only makes sense to have one company handling both the installation of new furniture and the move of their existing offices.

Keep up the good work!!

Michael J. Lambert
President
bfi Business Furnishings (Calgary) Inc.
